Aloha!

Temple Turmeric™ is one my new favorite brands and I would be thrilled to be able to buy it here.

Temple Turmeric is the innovator of nourishing turmeric-based elixirs, blends and shots designed to promote mindful wellness and support a healthy inflammatory response. Their products are Non-GMO Project Verified, High Pressure Pasteurized (HPP) and are made with organic ingredients, including their powerful proprietary Hawaiian Oana Turmeric™ grown in the nutrient rich soils of Hawaii.

Here's a list of their products with UPCs to make ordering my favorite variety easy:
